Mobile: +91-9555349309

Skills

Languages: C/C++, JavaScript, Java, HTML & CSS, PHP
Frameworks: React, Django(python), Tailwind CSS, Node.js,
Tools/Platforms: MySQL, MongoDB, Git & GitHub, VS Code, VirtualBox
Soft Skills: Problem-Solving Skills, Team-oriented, Innovative, Adaptability, Analytical Reasoning

Summer Training

Cipher School

MERN full stack development **June 2024 – July2024**

- **About**: The training covered MongoDB, Express.js, React.js, Node.js, focusing on building dynamic and scalable web applications. Worked on projects under the guidance of experience mentors, enhancing skills in frontend and backend development, state management, and API integration.
- **Tech stacks used**: React.js, MongoDB, Express.js, Node.js, React router.
- **Project Overview**: Dynamic Blog website is a full-stack Web application built using MERN stack. It allows users to create, edit, delete and read blog posts with features like authentication, commenting and search functionality.

Projects

Travel Management System — November 2025

Overview: A web application for booking hotels, flights, and tour guides, providing destination-wise hotel details, virtual tours, and vendor services, with an admin dashboard to manage users, bookings, and service providers efficiently.

- Provides a unified platform for booking hotels, flights, taxis, and tour guides.
- Enables users to view and compare complete travel packages for informed decision-making.
- Displays destination-based hotel listings with room types, availability, and per-person pricing.
- Includes an admin dashboard for managing users, hotels, bookings, and service providers.
- Supports user reviews, booking history, destination insights, and safety information.

Tech: HTML, CSS, Django, Django Authentication, MySQL, MVT

Home – Décor Project — November 2024

Overview: Developed a responsive e-commerce web application for showcasing and selling furniture products, allowing users to browse, filter, and purchase items seamlessly.

- Displayed furniture products with details such as name, price, and description using Bootstrap cards.
- Enabled search and filter functionality based on categories and price range.
- Allow users to add products to the shopping cart and proceed to check out.
- Includes an admin dashboard to add, update, and delete products.

Tech: React, CSS, JavaScript, Bootstrap, MySQL.

Certificates

Project Management by Coursera	October 2025
Cloud Computing by NPTEL	April 2025
MERN Stack Training by Cipher School	July 2024
HTML, CSS, JavaScript by Cipher School	July 2024
Server-side JavaScript with Node.js by Coursera	April 2024
Programming in C++ by Coursera	November 2023
Mastering Data Structure & Algorithms using C and C++ (Udemy)	November 2023

Achievements

Volunteering at TEDx Event — February 2023

- Collaborate with teams and handle events at Wissen Club

Education

- **Lovely Professional University** — **Punjab, India**
- Bachelor of Technology - Computer Science and Engineering — August 2022 – July 2026

- **Heliger Borden Education Center** — **Panki, Kanpur Nagar**
- Intermediate — April 2018 - March 2020

- **Heliger Borden Education Center** — **Panki, Kanpur Nagar**
- Matriculation — April 2016 - March 2018
